**DETAILED ACTION**

***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 05/31/06 has been entered.

2. The Amendment and Petition of Time Extension filed by Applicant on 05/31/06 has been entered.

3. Claims 1-15 are cancelled.

***Response to Amendment/Arguments***

4. Applicant's amendment and arguments filed on 05/31/06 have been fully considered and they are found unpersuasive.

5. The rejection of claims 15-25 under 35 U.S.C. 102(e) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as

Art Unit: 1713

obvious over Takamatsu et al., JP Pub No. 57-145103 (hereinafter "Takamatsu") is withdrawn.

***Allowable Subject Matter/Reasons for Allowance***

6. Claims 16-25 are allowed.

7. The following is an examiner's statement of reasons for allowance: The closest prior art located or identified by the Examiner is Takamatsu and Takamatsu et al., JP Pub No. 57-145103 ("Takamatsu II"). Takamatsu discloses a modified polymer obtained by adding isoprene, maleic anhydride to a low-MW isoprene polymer wherein the resultant polymer cyclized. The average MW is 10,000 to 50,000. Takamatsu II teaches a cyclized conjugated diene polymer. Takamatsu II further teaches a phenolic compound added to subject the diene polymer to cyclization. The present invention differs from the Takamatsu references in that the Takamatsu references require butyl rubber ("polyisoprene") and a phenolic compound, instead of an unsaturated carboxylic acid compound.

8. As of the date of this Notice of Allowability, the Examiner has not located or identified any reference that can be used singularly or in combination with another reference including

the Takamatsu references to render the present invention anticipated or obvious to one of ordinary skill in the art.

9. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
